

Town of Huron – Local Waterfront Revitalization Plan (LWRP)

The Town of Huron has received State grant funds to prepare a Local Waterfront Revitalization Plan for the Town. This is the Town's opportunity to express its vision for the use and development of the various shorelines within the Town, including Sodus Bay, East Bay, and Port Bay. The Plan will recommend actions that will improve the natural environment, enhance public enjoyment of the waterfront and promote economic development.

The Steering Committee appointed by the Town Board invites you to attend two public meetings to help understand the issues affecting the Town's waterfronts and to discuss ideas for their revitalization.

PUBLIC MEETINGS

Wednesday, September 14, 2011

7:00 p.m.
